We are pleased to announce the third installment of the Mischief Series; Spider Web Scramble is the recipient of a Gold Mom's Choice Award. The story continues the adventures of Lilly, Boris, and Jack, in the fantasy world that award-winning author Amanda M. Thrasher has created. Spider Web Scramble features the special needs fairy, Pearle, who discovers through her friend's hard work and loyalty she can complete the magical spider web scramble with the other fairies. However, what she realizes at the end of the race is something that is far more important than winning.

This is Thrasher's second Mom's Choice Award. Her first was awarded for The Greenlee Project, a YA book about cyberbullying and bullying. It is an excellent choice for tweens and teens.
